

WELCOME

Thank you for choosing ACCESS – Pasadena, where our doctors, medical technicians, and admin teams are ready to provide your pet with the highest level of care and compassion.

Rich Mills, DVM, DACVECC
Founder and Owner
ACCESS Specialty Animal Hospitals

In 2005, Dr. Rich Mills, a board-certified criticalist, recognized a need for specialty veterinary care and launched Advanced Critical Care and Internal Medicine of Los Angeles (ACCIM-LA). The venture quickly expanded in response to overwhelming demand, leading to the introduction of additional medical departments.

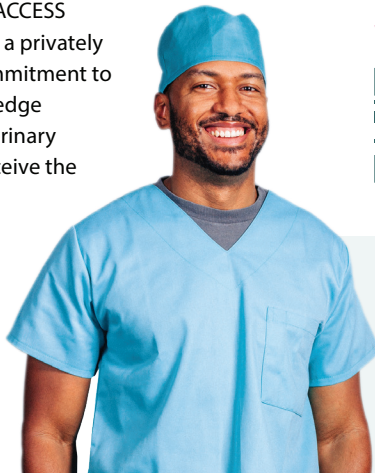

By 2012, a multi-specialty animal hospital in San Fernando Valley was acquired. With two locations and an increased number of services, the name was changed to Advanced Critical Care, Emergency, and Specialty Services (ACCESS). Then, in 2015, a third location, ACCESS - South Bay, was opened in Torrance, CA.

In early 2021, ACCESS further expanded its reach by inaugurating its fourth hospital in Pasadena, CA. This addition brought much-needed advanced veterinary care to pet owners in the San Gabriel Valley.

While the first three ACCESS hospitals were acquired by Thrive Pet Healthcare in 2019, ACCESS Pasadena continues to operate as a privately owned hospital. Through our commitment to compassionate care and cutting-edge medicine, we lead the way in veterinary innovation, ensuring that pets receive the highest quality medical care.

Pet Emergency? We're here for you!

OPEN 24X7
FOR PET
EMERGENCIES

Open 24x7 for emergencies.
No appointment needed.

From torn nails to bee stings and bite wounds to the most complex, life-threatening traumas, our doctors and seasoned staff are ready to help your pet.

(Please note, for legal and practical reasons, without an examination, we are unable to provide specific medical advice for your pet over the telephone.)

For referrals...

When your pet is sick or injured, treatment usually begins with your local veterinarian. Occasionally, their patients (your pets) require specialized care.

This is where ACCESS – Pasadena comes in. Our doctors and specialists who have undergone extensive training in their respective fields, have the expertise to diagnose and treat complex diseases and disorders.*

By utilizing our advanced medical equipment, they can identify issues, provide quick diagnoses, propose treatment plans, and perform complex procedures – all tailored to your pet's needs.

*Not all of our doctors are board-certified specialists.
